Microsoft

Securely harness the power of the cloud with Azure Advanced Threat Protection

Get real-time security at enterprise scale

Use the power and scale of the cloud to help safeguard against threats that are increasing in frequency, severity and sophistication.

Detect threats quickly

Azure Advanced Threat Protection monitors behaviour of users, devices and resources, and detects anomalies straight away.

Stay focused on what's important

Get a clear, efficient and convenient feed that surfaces the right issues on a simple attack timeline.

Why trust Microsoft with your security?

Microsoft invests more than **USD $1 billion annually** on cybersecurity research and development

Microsoft employs more than **3,500 security experts** completely dedicated to data security and privacy

Azure has **more compliance certifications** than any other cloud provider
