

Create at the speed of innovation with Power Apps low-code tools

Build custom apps in hours – not months – that connect to your existing data and systems to solve problems faster and drive efficiency.

188%

ROI over three years

increase in productivity per line-of-business employee per week

reduction in app development costs

Gartner estimates that **65% of all app dev will be low-code** by 2024

AI Builder will help build an AI model to automatically identify and track our products using object detection. For our field worker, it will be as simple as taking a photo and letting AI Builder do the rest.

Eric McKinney, Enterprise Business Systems Manager, G&J Pepsi

Results are for a composite organisation based on interviewed customers. The Total Economic Impact of [Power Apps](#) commissioned study conducted by Forrester Consulting, March 2020.
